

## Costs and order information A Paper Monument for the Paperless

The posters are printed in the form of a newspaper, containing 32 pages. 31 portraits and on the back one article about the project. Its good to know that the pages of the Paper Monument newspaper are printed on both sides. That means that, if you want to hang all the posters, you need two newspapers. When you want one paper for your private use and collection we kindly ask you to donate 10 euros excl. shipping. By paying the normal price you support the growing and development of this endeavor.

Please let us know if you can't pay the full poster price, poor and enthusiast poster pasters can negotiate discounts.
